1.2.1.1. Properties and Methods. The property or **method** name starts with the initial keyword in lowercase, and each subsequent word starts with a capital letter. Writes an "unshared" **object** to the ObjectOutputStream. This **method** is identical to writeObject, except that it always writes the given **object** as a new, unique **object**. Releases resources associated with this MediaPlayer **object**. It is considered good practice to call this **method** when you're done using the MediaPlayer. Filters: Retrieving Data from Server.
